

CS 171 Project Guidelines

Dates

- May 01** – Submission of project topic in UVLE*
- May 27/29** – Project presentation**
- Jun 09** – Submission of project paper***

Details

* On or before **May 01**, each group will submit a **(1-page)** project topic proposal in UVLE. The project proposal should have the following information:

Proposal Contents:

- Topic Title
- Topic Description (only one paragraph)
- List of Desired Properties to be Verified in Coq (or Roqc)

Example:

- Topic Title: Traffic Light Correctness Verification
- Topic Description: <you may fill in the blanks here why traffic lights are critical systems, need for correctness in performance, etc. etc.>
- Desired Properties: Correctness / Synchronization of Traffic Light System

** On **May 27-29**, each group will give a **short 10-minute presentation** about their topic, its relevance, properties formally specified in Coq and their corresponding formal proofs.

*** On **Jun 09**, each will group will submit a **5-10 page paper** that follows a conference paper format, complete with Abstract, Introduction, Property Specification, Results and Discussion, Conclusion and References.
